

iWAREHOUSE[®] labor management system.

BUSINESS NEEDS

- + Timely visibility into performance against facility budget
- + Decrease operational costs while increasing productivity and efficiency
- + Drive best practices and consistency across facilities

CHALLENGES

- + Visibility to costs (customer and process)
- + Limited IT resources
- + Budget constraint for new software
- + Multiple datasets create inefficiency
- + Current data is manually collected
- + Performance based on single metric

RESULTS

- + Better business decisions
- + Daily tracking against budget
- + Volume adjusted budget
- + Facility comparison by segment or customer
- + Drive productivity and utilization
- + Increase employee retention through robust self-funded incentives

ROI SUMMARY

- + Customers report up to 40% increase in productivity and up to 20% labor cost reduction
- + Timely data drives business decisions
- + Compare facilities, drive best practices
- + Toolset for employee engagement
- + Accelerated ROI
